### (54) Image pickup device

(57) An integration of a pickup element and an optical element including an imaging lens can be integrated with a casing to miniaturize the obtained pickup device. A coupling portion is integrated with the pickup element and is fixed to a fixing portion included in the casing. In accordance with the present invention a pickup device includes a substrate (1), a pickup element (2)

provided on the substrate (1), an optical element (3) provided on the pickup element (2) and having at least one imaging lens (3a), a wire (10) electrically connecting the substrate (1) and the pickup element (2) together, and a resin seal (11) sealing the wire (10) while exposing the imaging lens (3a), the pickup element (2) and the optical element (3) integrated together and a casing (7) being integrated by the resin seal (11) and thus miniaturized.

### CLAIMS INCURRING FEES

The present European patent application comprised at the time of filing more than ten claims.

- ☐ Only part of the claims have been paid within the prescribed time limit. The present European search report has been drawn up for the first ten claims and for those claims for which claims fees have been paid, namely claim(s):
- ☐ No claims fees have been paid within the prescribed time limit. The present European search report has been drawn up for the first ten claims.

### LACK OF UNITY OF INVENTION

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

see sheet B

- ☒ All further search fees have been paid within the fixed time limit. The present European search report has been drawn up for all claims.
- ☐ As all searchable claims could be searched without effort justifying an additional fee, the Search Division did not invite payment of any additional fee.
- ☐ Only part of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the inventions in respect of which search fees have been paid, namely claims:
- ☐ None of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims, namely claims:

**LACK OF UNITY OF INVENTION  
SHEET B**

Application Number  
EP 01 10 3738

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

**1. Claims: 1-5**

Mounting of image pickup, imaging lens into casing

**2. Claims: 6-10**

Sealing of image pickup, imaging lens and connecting wires

**ANNEX TO THE EUROPEAN SEARCH REPORT  
ON EUROPEAN PATENT APPLICATION NO.**

EP 01 10 3738

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on  
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
